YOSH
EKOLOGLAR
HARAKATI

Tavsifnoma

Shaxzod Yodgorov – yosh va iqtidorli ekolog bo'lib, bir necha oydan beri Ekologiya vazirligi huzuridagi “Yosh ekologlar” harakati a'zosi sifatida faol qatnashib kelmoqda. U shu davr mobaynida o'zining ekologik va ijtimoiy tashabbuslari bilan alohida ajralib turdi. Xususan, u harakatimiz doirasida o'tkazilgan bir qator muhim ekologik tadbirlarga boshchilik qildi. Jumladan, hududlarni toza saqlash maqsadida plogging aksiyalarini tashkil etdi, jamoat bog'larini tozalash va obodonlashtirish ishlarini muvofiqlashtirdi. Shuningdek, aholi o'rtasida ekologik ongni oshirishga qaratilgan tadbirlarda faol ishtirok etadi. U tez-tez yoshlar va mahalla ahli bilan uchrashuvlar o'tkazib, tabiatni muhofaza qilish va ekologik madaniyatni yuksaltirish mavzularida suhbatlar olib boradi.

O'zining fidoyiligi va yetakchilik fazilatlari tufayli u jamoamiz va mahallada katta hurmat qozongan bo'lib, juda mas'uliyatli, tashabbuskor hamda har bir ishda o'zga yoshlar uchun o'rnak bo'la oladigan yosh mutaxassisdir.

Shunday qilib, biz, “Yosh ekologlar” harakati jamoasi, Nurbek Nuritdinov ekologiya va jamiyat bilan bog'liq har qanday loyiha yoki dasturda ishtirok etish uchun chin dildan tavsiya etamiz va u bunday faoliyatlarda munosib hissa qo'sha olishiga to'liq ishonamiz.

THANKS FOR THE HELP

Gratitude practices do not call for ignoring negative emotions and driving them deeper, replacing them with joy. Scientists never tire of reminding us that emotions, even unpleasant ones, are necessary — they help us communicate with other people, realize that something important is happening to us, and react to events around us. In addition, there are no "bad" and "good" emotions — this is a difficult way to perceive reality, and it is simply impossible to "turn off" or stop perceiving one of them.

Gratitude practices do not displace negative moments from your life, but should help you see a fuller picture, act calmer and more balanced even in moments of crisis. They generally allow you to take a fresh look at troubles and dramas - although this, of course, does not mean that you should rejoice when something bad happens in life, or stop defending your interests.
